

6 Day Reflective Retreat

3rd (eve) 4th—9th May 2009 inc.

In the conference we will explore the narrative shape of the Jesus story, the different beginnings chosen by the evangelists, and the major moments of the life of Jesus.

In exploring the story of Jesus the participants will make their own connections with the narrative of their own life, in the hope that two stories will shed light on each other.

Two, one hour conferences each day are supported by an evening liturgy, which expresses in prayer and ritual the journey of discipleship in the Gospel and in our lives.

Fr McBride will be available for limited private consultation during the retreat.
